

## **YOU WANNA DANCE YOU GOTTA PAY THE BAND**

Ain't no fool  
Know the rules  
I have already played this game before  
Got to tell  
Know so well

Everyone's got to settle the score  
Don't believe  
Anything's got to be handed to me  
What I want

What you don't  
What I do and what's got to be  
Don't give much  
Need a lot

I'm not satisfied with what I got  
Ain't no fool  
Know the rules

If you want to dance  
You gotta pay the band  
I know you know everybody knows  
You gotta pay the band

## **ON THE PROWL**

Tonight I'm on the prowl  
Hungry for more  
I'm gonna hunt you down  
And hunt you out  
You're gonna beg for more  
Coz' you're a whore  
And I'll give you what you want

Oh! yeah! I'm gonna get get get  
You! yeah! and I'm gonna take my time

Tonight I'm getting laid  
As you get paid  
They don't give me anymore  
What I'm here for  
Let me give you what you want  
I'll please you all  
You're gonna hit the spot  
I'm here for you  
And you're all mine

## **EVERY TICK OF THE CLOCK**

I'm so tired  
I did not stand the test of time  
It has only left a bad fucking taste  
Spit or swallow and let it grow

I'm growing old  
Nothing to do  
I'm growing cold  
But a lot to lose  
Looking at what's done  
And what's been lost

Nothing's making me tick  
And every tick of the clock  
Takes me away  
From any turning back

From now on my lips are sealed  
Only cutting sounds were coming out  
What can I say, what's the point anyway  
No one to talk to, nowhere to go  
I'll just wait and see  
Nothing's to come, no one to meet

## UP TO YOU

Can you show me  
What a real man  
Is supposed to do  
You know I'm not so strong  
I wish I was perfect like you  
Can you explain to me  
Why do I have  
To look up to you  
To prove myself  
I just want to prove I'm up to you

When I'm looking into your eyes  
I can guess my future without any problems  
When I'm looking into your eyes  
Look at the present as a curse  
The future as a hope

Congratulations  
You're the one  
The fucking one and only that matters  
I've found a way to treat you like you deserve  
You'll only get what you deserve  
Don't you know what's down this road  
Do you wanna go this way  
And now I'm sure I'm up to you

Close your fucking eyes

*Additional vocals by Guillaume Doussaud.*

## **DO YOU THINK OF ME**

One more day, I'm so well  
Trying to be elsewhere, one more time  
Many eyes don't see me  
Too many eyes watch the sun

They lie and pretend I'm not here  
And still walk  
They fear what I know  
They know they are mine

And one more day spent smiling  
One more night spent daydreaming  
Do they really think I need them  
While I get closer to the sun

Such a feeling to see my world in cyan  
That's what it is to light up your lives  
"Quite an experience to live in fear  
That's what it is to be a slave"

*Additional vocals and guitar by Serge Morattel.*

## **GET NAKED**

We've all been wearing that same suit  
It does not fit me anymore

Too tight  
Feel cramped  
I need to take it off  
Back off  
Strip off  
Let's get fucking naked

Get away, get away  
That's a game I won't play  
Get away, get away  
I know it's better for me

Feel like we can't make a move  
What are we trying to prove

A forest of fists in the air  
Like the bars of my cell  
It's time to get undressed  
Show me what's underneath

## **THE PRICE TO PAY**

Do you believe  
The price we have to pay  
I can't believe  
This is the price we pay

And you believe  
It is true what they say  
I can't believe  
There is no other way

We've got to understand  
Our blood don't stain  
We've got to understand  
Our loss / their gain  
We've got to understand  
We're just a link in the chain  
We've got to understand  
No gain just pain

Day by day  
We die slowly  
Bricks by bricks  
Watch us die

Do you believe  
The price we have to pay  
I can't believe  
This is the price we pay

Do you believe  
I paint this picture black  
I can't believe  
There ain't no turning back

## **BILL MURRAY'S SYNDROME**

I feel like I'm stuck  
In an endless day  
Like bill murray  
In groundhog day  
And all the fun  
Has been taken away  
Every night's a hope  
Every morning's a let down

The same shit  
All over again  
The same shit  
Going on and on and on

Don't know when it starts  
Can't tell when it ends  
Am I gonna wake up  
And realize

The day is new  
Don't know when it starts  
Can't tell when it ends  
Am I gonna wake up on a new day  
And find a way  
Ten shades of grey  
Be amazed again  
Be surprised again

## **A DRIFT**

I close my eyes to drift away  
What I see is just the same  
Maybe if I hold you...  
So much to say but where do I start  
I can't believe I've never known that at all

Go with the flow  
Wake up and get up  
Day after day  
Fall on your sword  
Wake up and get up  
Day after day

Stormy nights and cloudy day  
Can I fix it, what can I do, what can I say  
It's been a short time, but just enough to find  
A little piece of mind somewhere under the sun

## **WASTE YOUR TIME**

I seize my chance  
I lock your chains  
I stand up  
And fight for what I believe in  
Use my fist  
Use my brain  
I can waste the little time you have left  
I'll kill you today, I didn't yesterday  
I am stealing each day your right to live  
Now your life is in my hands

We don't care what it meant  
I have no remorse  
I have no regrets

I seize my chance  
I lock your chains  
Choices to be made  
And now you have remorse  
One more time, I wanna feel your heat  
And now I want to stand near it  
I can't waste more time  
Your life is mine  
No walls high enough  
To stop me from moving on

## **FLOOD THE AIR**

She's haunting me  
She's dragging me down  
So slowly I'm drowning  
The deeper I go  
The tighter her grip is  
Trying to get pleased  
I should have known  
It's not like her

She floods the air around me  
She's killing me  
She's filling me up

I saw her smile  
I felt her scent  
One last breath, take the plunge  
Coz' down below  
I surely find the reason  
Going deep, seeking answers  
I should have known  
It's not like me
